

Breathe Cleaner, Healthier Air – in Every Room of Your Home

NovusAer: The Ultimate Whole-Home Air Purification System

You do everything you can to keep your home safe, but what about the air you breathe? If you or your loved ones suffer from allergies, asthma, or other respiratory concerns, the quality of your indoor air matters more than ever. Dust, pet dander, pollen, and airborne germs can lurk in every corner, even with a standard furnace filter in place.

That's where NovusAer comes in—a revolutionary, high-efficiency air purification system designed to eliminate harmful particles and deliver truly clean air to every room.

Why Choose NovusAer?

- **Medical-Grade Filtration** – Captures the smallest allergens and pollutants with up to **20x more efficiency** than standard filters.
- **Whole-Home Protection** – Unlike portable air purifiers, NovusAer integrates with your existing HVAC system to clean every breath of air that flows through your home.
- **Ultra-Long-Lasting Filters** – Our advanced filtration technology lasts up to **3 years** before needing replacement—saving you money and hassle.
- **Unmatched Performance** – More than **230% greater filtration surface area than Lennox MERV 16** and an **astounding 5700% more than a standard furnace filter** for maximum efficiency.
- **No Noise, No Hassle** – Works silently in the background with no additional electricity usage, fans, or moving parts.
- **Certified Clean Air** – Independently tested and certified. Guaranteed to be 20X as efficient as standard filter systems.
- **100% Satisfaction Guarantee** – Try it for a full year—if you're not completely satisfied, we'll give you your money back. No questions asked.

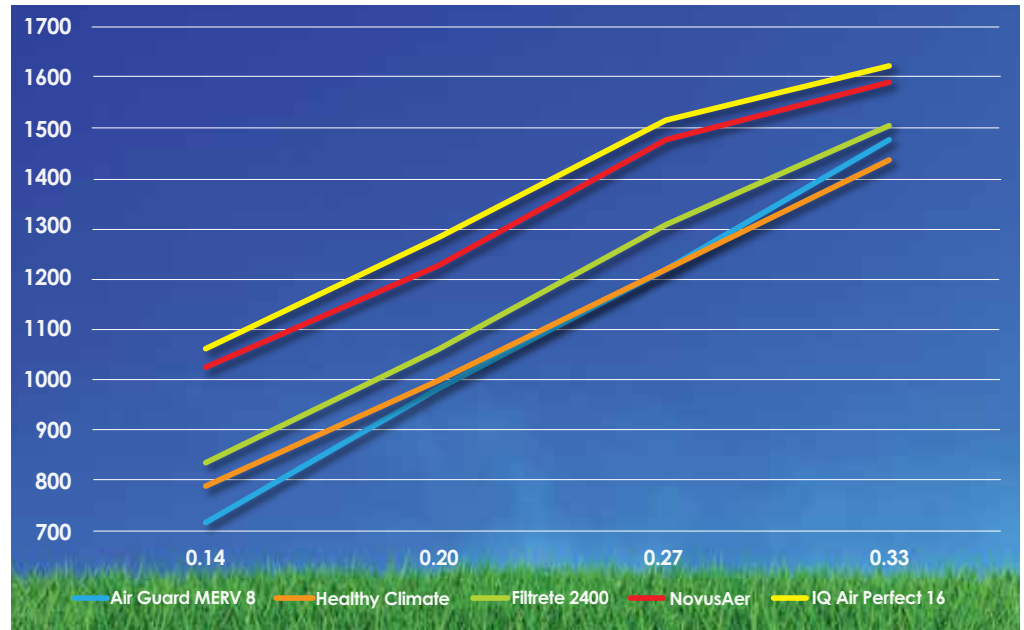

NovusAer is backed by our 100% Money-Back Guarantee. If for any reason, you are not completely satisfied in your first year of ownership of the NovusAer whole-home air cleaner, and we can't make you happy, we'll refund your money.

**NovusAer is sold exclusively
through qualified HVAC
contractors**

Patent number: US10,307,703B1

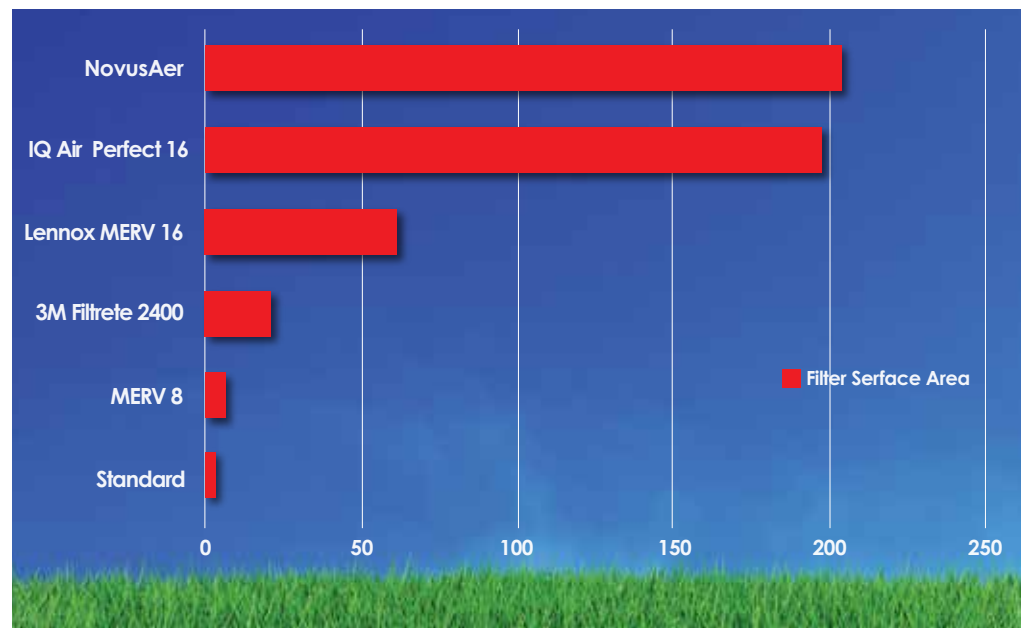

Maximum Air Flow, Maximum Comfort

When it comes to protecting your home's air quality, surface area matters. NovusAer outperforms the competition by delivering superior airflow and filtration, ensuring cleaner, healthier air for your family. With an impressive **230% more than a Lennox MERV 16 media filter**, and a staggering **5,700% more than a standard furnace filter**, NovusAer captures more allergens, pollutants, and airborne particles—giving you the ultimate peace of mind.

Unmatched Air Purification with Maximum Surface Area

Most whole-home air cleaning systems force you to choose between clean air and efficient airflow—but not NovusAer. Unlike traditional filters that restrict airflow and strain your HVAC system, NovusAer delivers **powerful filtration without compromise**. Designed to rival the airflow of the most expensive systems on the market, it keeps your home comfortable while capturing allergens and pollutants. With NovusAer, you get **cleaner air and peak system performance—no trade-offs, just results**.
